

GEI Consultants ranks among largest in *Boston Business Journal* Survey

Firm appears on lists of largest private companies

BOSTON, Mass.— December 29, 2008 -- GEI Consultants, Inc., one of the nation's leading environmental engineering, ecological, geotechnical and water resources firms, announced today it has been recognized as one of the largest privately held companies in Massachusetts by the *Boston Business Journal* (BBJ).

As one of Massachusetts largest private companies, GEI has moved up 17 places from 81st in the 2007 standings to appear in the 64th position on this list. This increase has landed GEI on the list of "Biggest Gainers". Presently, the firm is working in Boston, Mass. on the Yawkey Center for Cancer Research, Dana Farber Cancer Institute and the MBTA Silverline Tunnel project, as well as on the site of the Former Canton Airport in Canton, Massachusetts, among many others.

"Our rapid growth is largely the result of strong client relationships that are built on trust, a company culture that emphasizes collaboration and innovation, a tremendous staff, and integrated environmental and geotechnical services that tend to further reduce uncertainty, schedule and cost related to the underground elements the project," said Tom Kahl, a GEI senior vice president and New England regional manager. "It is an honor to be included among the commonwealth's largest private firms, as recognized by the *Boston Business Journal*."

About GEI Consultants, Inc.
