### **GEI Consultants named one of Zweig Letter 2008 Hot Firm**

**BOSTON, Mass.— November 26, 2008--** GEI Consultants, Inc., one of the nation's leading geotechnical, water resources and environmental engineering firms, announced today that it has been ranked for the first time on the ZweigWhite Letter 2008 Hot Firm List. The Hot Firm List orders the top 200 growth firms in the fields of architecture, engineering, planning, and environmental consulting. GEI was ranked 146th.

Mark Zweig, founder and director of ZweigWhite, says, "The firms that made this year's Hot Firm List should be proud. Even with the challenges many firms are facing in this economy, it was still an incredibly competitive and successful group. Firms that commit to revenue growth while investing in marketing, information technology, and other infrastructure are usually the most successful in our industry. They have shown they have the ability to sustain their success, year after year. The hottest firms in the business- those with consistent growth and success at outperforming the economy and their peers- are the ones that attract top staff and the best clients."

"The Zweig White ranking methodology does an excellent job of assessing sustained growth, and we are very pleased with our inaugural ranking at number 146 of the top 200 firms," said Chris Stockwell, chief marketing officer at GEI Consultants Inc. "The country is comprised of thousands of outstanding companies in the AE market and we feel honored to receive this recognition."

*The Zweig Letter 2008 Hot Firm List is based solely on gross revenue for fiscal years 2004 through 2007 as verified by financial statements or income tax returns reviewed by third parties. The list is limited to firms based in the United States and Canada deriving the majority of their revenue from the practice of architecture, engineering, planning, environmental consulting, or allied disciplines. Design/build firms are also eligible.*
